## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election without traverse of the species depicted in Figure 3 in the reply filed on 22 September 2003 is acknowledged.
2. Claims 5, 6, 8-14, 16, 26, 27 and 31-33 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 22 September 2003. Additionally, it is believed that claim 15 is drawn to a nonelected species depicted in Figure 7. Therefore, claim 15 has also been withdrawn from further consideration.
3. In response to Applicants' remarks regarding Examiner's withdrawal of claims (p. 8, paragraphs 1-2, filed 11 May 2004, Examiner asserts that claim 15 had been correctly withdrawn. On p. 2 of the Office Action mailed 19 November 2003, it is clearly noted that claim 15 would be withdrawn from consideration as being drawn to a nonelected species. Applicants' remarks incorrectly asserted that claim 15 was indicated as pending. There was never a discrepancy regarding the status of claim 15 in the Office Action mailed 19 November 2003. Claim 15 will not be considered on its merits and will be withdrawn from consideration for the reasons described above.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3763

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-3, 7, 17-25, 28-30 and 34 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 5,630,796 to Bellhouse et al. (hereinafter "Bellhouse").

Bellhouse discloses a needleless injector having a cassette 28 that has a first cassette part 30, first rupturable membrane 33, second cassette part 31, second rupturable membrane 34 and particles 32. See Figures 1 and 8. Bellhouse also describes the claimed method in col. 12, lines 29-43 in the specification. With regards to the limitation that the first and second cassette parts being attachable together by an interference fit, Bellhouse does not explicitly disclose such a fit but merely indicates that first cassette part 30 is disposed about second cassette part 31. It is considered well-within the ordinary level of skill of the artisan to readily form an interference fit between two parts intended to be in sealing engagement with each other. It would have been obvious to one of ordinary skill in the art to use an interference fit between the cassette parts of Bellhouse in order prevent two parts from easily separated.

#### *Response to Arguments*

5. Applicant's arguments with respect to claims 1-3, 7, 17-25, 28-30 and 34 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 3763

*Conclusion*

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
